Using a mixture of 2 parts water and 1 part Super Concentrated Polymer dip a sponge into the liquid mixture and then into a Powdered Color Accent.

With a slightly damp sponge of the water and Polymer mix and Powdered Color Accent on the sponge spread around the surface accent low and high areas to achieve a more stone like finish.

Accents work better on textured surface than on smoother finishes.

Clean Up:

Rinse out the sponge with clean water and allow to dry. This sponge can be used for future dry accents.
