

Acryli-Shades
Product Information
Category: Colors
16 oz (1-Gallon Call In Special Order)
5100 Series

Description and Use:

Granicrete's Acryli-Shade Colorants can be mixed with water and used as a topical colorant to achieve a stone like color and look. Do not use as an integral color with textures. This engineered product is used in the following applications:

- | | |
|---|---|
| <input checked="" type="checkbox"/> Floor Overlay | <input checked="" type="checkbox"/> 3D |
| <input checked="" type="checkbox"/> Interior | <input type="checkbox"/> Epoxy Flooring |
| <input checked="" type="checkbox"/> Exterior | <input checked="" type="checkbox"/> Shower FX |
| <input checked="" type="checkbox"/> Countertop | <input checked="" type="checkbox"/> Outdoor Islands |

Advantages:

- Vast range of different colors
- Multi-use product within all Granicrete Systems
- Authentic stone colors
- Offering a more "paint-like" aspect in coloring

Color:

Refer to the Acryli-Shades Color Chart.

Mixing:

Wash: 4oz Acryli-Shade Colorant to 16-20oz of water

Granicrete recommends that all our systems have some degree of topical colorant to enhance the stone like finish and reduce any error when mixing colors integrally.

Acryli-Shades should be diluted with water in the other Granicrete coloring system.

Acryli-Shades are available in larger containers and can be applied directly to concrete patios and concrete decking. Such direct to concrete application would be without dilution and does not require sealing.

Application:

Washes can be sprayed, brushed, or sponged onto the surface to achieve the desired look.

Cleanup:

Equipment should be cleaned with environmentally safe solvent immediately after use.

Wear Personal Protective Equipment. Read SDS before using this product.

DOT not regulated.
