

A large, light brown, stylized letter 'G' serves as a background for the page. It is positioned behind the company name and the main text block.

# G

## **GRANICRETE** INTERNATIONAL

Granicrete International epoxy will meet the small scale test ASTM D635 for self extinguishing. The large scale testing such as ASTM E-84 will be performed but has not been completed yet. The small scale test was performed and tested under un-official guidelines and therefore does not have official results, but the products did pass and future results will show that once the official test is ran.

MARC WINKELMAN

CEO
