

**GRANICRETE**  
INTERNATIONAL

## Mocha Madness

### For this finish you will need:

1. Taupe-Dispersion
2. Antique White – Acryli-Shade
3. Groutline Grey-Dispersion

### Mixing Procedure:

1. Mix Taupe (2 caps to 24oz of water) into a *Granicrete* professional spray bottle.
2. Mix Antique White (4oz caps to 24oz of water) into a *Granicrete* professional *spray bottle*.
3. Mix Groutline Grey (2 caps to 24oz of water) into a *Granicrete* professional *spray bottle*

### Step-by-Step Procedure:

1. Apply all Granicrete Countertop Blend coats per installation instructions.
2. Mist and speckle 80% of the surface using Taupe. While still wet, proceed.
3. Mist and speckle 50% of the surface using Antique White. While still wet, proceed.
4. Stream and Spot Flood 40% of the surface using Groutline Grey.
5. Allow surface to completely dry and then apply Granicrete Crystal Top Epoxy per product instructions.

**Professional Tip:** Constantly shake up FX colors while being used in a spray bottle. The powder within each FX color is what makes them unique. If the color rest in the spray bottle the powder will settle to the bottom.

### Mocha Madness Notes:
